

# Humphrey Deplores Riots, Nixon Proposes to Halt Use of Drugs

By THE ASSOCIATED PRESS  
Democratic candidate Hubert H. Humphrey, declaring "the riots will be stopped," has promised to forge a federal, state and local government attack on crime and civil disorder if he wins the presidency.

Republican candidate Richard M. Nixon, meanwhile Monday, said drug use is "decimating a generation of Americans" and proposed a program to halt drug traffic and rehabilitate addicts.

Third party candidate George C. Wallace said he will announce his vice presidential running mate in the next few days, and he said both the Republican and Democratic candidates "are beginning to sound like me."

Humphrey's pledge to stop the riots came in a statement in which he endorsed 84 recommendations drawn up by his special task force and called for an "honest, clear discussion" of the crime and disorder problem. "This is not a time for fear-mongering, slogans or empty promises," Humphrey said. "These tactics can only lead to national disaster."

His program included federal funds for better paid, trained and equipped local police; "highly-trained, highly mobile units which can act immediately to stop civil disorders in their early stages," and federal law enforcement technique assistance teams to respond to local requests for help.

"We need not follow the path of blind repression and counter-violence which only tends to increase loss of property, loss of life and loss of control," he said. "But let me make it perfectly clear: the riots will be stopped. I welcome dissent, but not violence and destructive action which actually obstruct progress."

Nixon said in Anaheim, Calif., that his drug control program was prompted by an anonymous letter from a 19-year-old addicted girl who described the horrors of the habit and gruesome things done to support it.

"Let us begin to face facts," Nixon said. "Narcotics are the modern curse of American youth. Just like the plagues and epidemics of former years, these drugs are decimating a generation of Americans."

He said he would try to triple customs agents to tighten border security against drugs, set up commissions with other nations to stem the flow, strengthen federal rehabilitation programs, begin a review of smuggling laws and bring together law officials to discuss ways of curbing drug traffic.

Wallace gave no indication who this running mate will be but said it would be someone "with the qualities possessed by a man like J. Edgar Hoover."

Wallace was in Dallas for the Texas state convention of his American Independent party. He told a rally:

"I used to say there is not 10 cents worth of difference between the Democrats and the Republicans. Now I can say there is not 10 cents worth of difference between some of the things both of them are saying and I am saying."

# Upholds Firing of College Instructors

LITTLE ROCK (AP) — The State Supreme Court Monday upheld a lower court ruling which dismissed a lawsuit filed by Dr. Charles G. Hamilton, a former instructor at the College of the Ozarks at Clarksville.

Hamilton was dismissed from the school's staff in 1958. He contended that he did not receive a proper hearing before the dismissal and asked that he be reinstated with back pay.

Johnson Circuit Court Judge Russell C. Roberts upheld Hamilton's dismissal.

The high court did not judge the case on its merits, but issued an order upholding the lower court's ruling because Hamilton's attorney did not comply with a Supreme Court rule requiring an abstract of the lower court proceedings to be filed on appeal.

The high court also took under advisement the case of Lonnie Mitchell, 29, who has been on death row for nine years. John Sizemore, Mitchell's attorney, told the court that a recent U.S. Supreme Court decision entitled Mitchell to a new trial.

Mitchell, a Negro, was sentenced to death in the rape of a 70-year-old white woman at El Dorado.

Sizemore argued that Mitchell's trial was invalidated by a ruling that even voluntary confessions are not admissible unless it could be proved that the defendant had been warned of his right to keep silent. He told the court that there was much evidence of coercion in obtaining a confession from Mitchell.

Assistant Atty. Gen. Don Langston challenged Sizemore's charge of police brutality and said Mitchell was told he was not required to make a statement.

ing of the one-stage rocket a success.

The test firing was delayed nearly six hours when fishermen sailed four boats into the restricted area. They claim the rocket tests are depriving them of a rich fishing ground. Last Thursday 12 fishing boats also disrupted a launching.

Experts said the rocket reached an altitude of 37 miles before a parachute brought down the nosecone containing weather instruments.

# Chrysler Price Hike Denounced

By CHARLES C. CAIN

Associated Press Writer  
DETROIT (AP) — Chrysler Corp. announced a price increase on its 1969 models which was promptly criticized by White House economists as "a severe setback to the cause of price stability."

"If it becomes the pattern for the industry," President Johnson's Council of Economic Advisers said in a statement Monday, "it would cost the American consumer \$750 million."

Chrysler said the increase averaged \$84 or 2.9 per cent above the current manufacturers suggested retail price.

An Associated Press computation put the average price of Chrysler's 172 different 1969 models at \$2,917.44, an increase of \$128.11, or 4.4 per cent over the average price of 160 1968 models which could be compared to the 1969s.

In an apparent attempt to meet government criticism ahead of time, John J. Riccardi, Chrysler's group vice president for U.S. and Canadian automotive, included the following statement in his price increase announcement Monday:

"The government's own figures from the Bureau of Labor statistics for July 1968, show that new car prices have declined by 17.9 per cent in relation to all items included in the consumer price index, since the 1957-59 base period. These same figures also show that this is the best record on retail prices established by any major group of consumer products in the past 10 years."

In its statement, issued by committee chairman Arthur M. Okun, the Council of Economic Advisers said, "We urgently request the other automobile manufacturers to head off this dangerous inflationary threat."

Ford, General Motors and American Motors are expected to announce new prices for 1969 models within the next two weeks.

Chrysler and Ford in 1966 and Chrysler in 1967 rolled back their first announced price increases when GM came up with smaller increases.

Last September's final price increase for all the Big Three averaged over \$100 a car.

Chrysler cited increased labor and material costs as key reasons for the price boosts on the new cars which go on sale Thursday.

# Thousands of Soviet Troops Ring Prague

By GENE KRAMER

Associated Press Writer  
PRAGUE (AP) — Thousands of Soviet troops ring Prague with their big guns aimed at the city to keep pressure on Czechoslovakia's leaders.

The steel ring of Soviet artillery is evident to anyone traveling outside the now tranquil but sad city. Heavy cannon, rockets and missiles point at Czechoslovakia's capital from north, south, and east and west.

One military expert says there is enough artillery not only to destroy the 600-year-old city but to "overkill" it shelling is ordered.

A short ride on the main highway east of Prague, a left turn toward the village of Dubec and there are 24 big guns set up in the alfalfa fields, their barrels pointed toward the capital. Twelve are lined up in a row to the right of the road; there are two groups of six on the left.

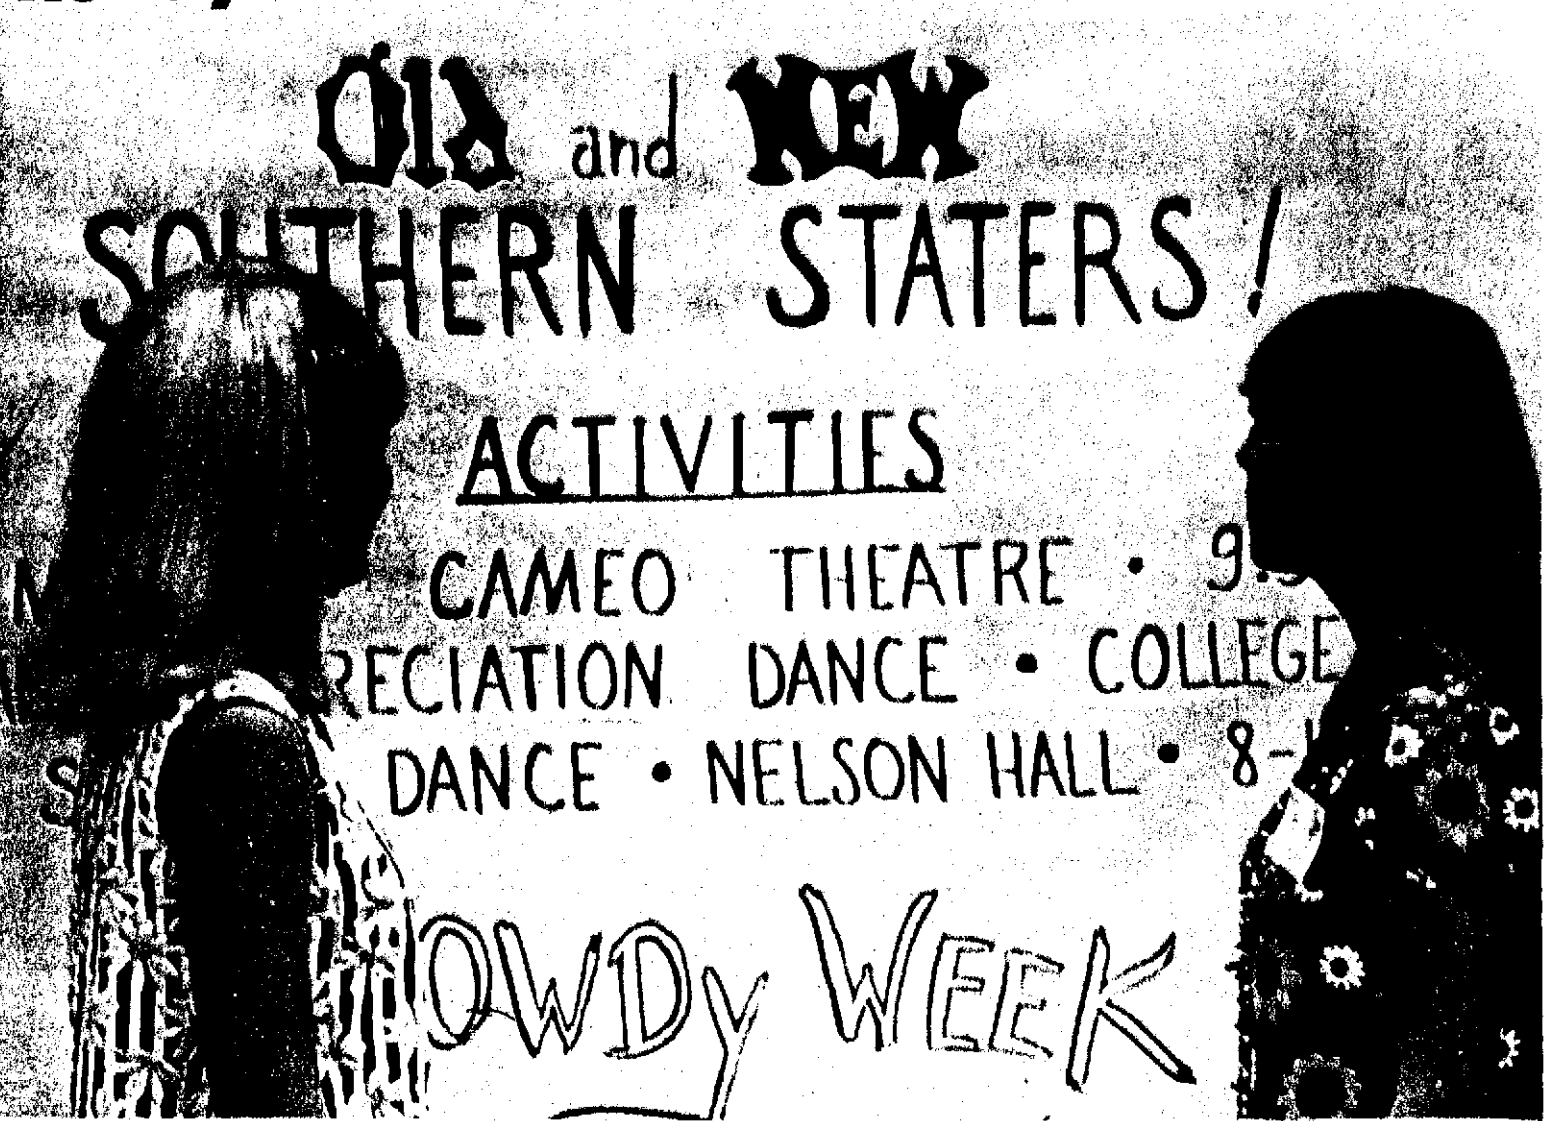

The guns appear to be 122mm cannon with a range of more than nine miles. Downtown Prague is less than eight miles away so these weapons could hit the presidential palace on the opposite bank of the Vltava River.

A mile or so farther are five batteries of multiple rocket launchers pointing at the city. A few hundred yards beyond the end of Prague's Stranice streetcar line, two score Soviet T55 medium tanks are parked, their guns directed toward the city.

Northwest of Prague, near the village of Horomerice, more than 50 big guns are concentrated within half a mile. They include at least 18 122mm howitzers, six huge 152mm cannon plus 85mm guns and 57mm automatic antiaircraft batteries. Some travelers have also seen missiles mounted on tanks aimed at Prague from the east and several tank regiments.

The artillerymen live in tents near their weapons with ammunition and supplies stockpiled nearby. Estimates of the total number of occupation troops ringing Prague range up to

# FORTAS FACES (from page one)

June 26 to succeed Earl Warren as chief justice. Johnson accepted Warren's retirement effective on the confirmation of a successor.

Majority Lead Mike Mansfield told the Senate Monday that if Fortas is not confirmed, Warren probably will stay on as chief justice "for a long time to come."

Opponents have based their attack on claims that President Johnson has no right in the waning days of his administration to make such an important nomination; that the President was guilty of "cronyism" in nominating an old friend; that Fortas violated the concept of separation of powers by advising Johnson while sitting on the high court, and that his decisions have helped the growth of pornography.

The controversy over Fortas' rulings on pornography cases prompted the introduction of legislation Monday to bar the Supreme Court from overturning jury findings of obscenity.

Republican Leader Everett M. Dirksen of Illinois offered the measure as an amendment to a bill now before the Senate to prohibit interstate mail order sales of shotguns and rifles.

A supporter of Fortas' nomination, Dirksen said no one is more concerned than he is over the circulation of obscene materials but "a solution will not be found by opposing the appointment of a chief justice of the Supreme Court."

Mansfield endorsed Dirksen's move and said that Congress should assume the initiative in acting against obscenity rather than blame Fortas or other Supreme Court justices.

The Judiciary Committee has until Friday to file majority and minority reports on Fortas' nomination, which is expected to be brought up for debate in the Senate next week.

The committee conducted 12 days of hearings in July and reopened them last week. But it was balked in its efforts to obtain testimony from administration officials about Fortas' services for Johnson since becoming a Supreme Court justice in 1965.

Secretary of Defense Clark M. Clifford begged off, and Under Secretary of the Treasury Joseph W. Barr and White House counsel W. deVier Plerson asserted executive privilege.

90,000.

Very little is camouflaged, and the site of artillery aimed at the big city is clearly visible to Czechs picking apples in nearby orchards or passing on their motorcycles.

The implication is that all the hardware is there to frighten the people and intimidate their liberal Communist leaders to meet Soviet demands.

One major demand, for renewed censorship of press and radio, is now being enforced. As a result, details are meager on the continuing talks between Soviet Deputy Foreign Minister Vasily Kuznetsov and the Czechoslovak leaders.

The Soviet demands are also believed to include permanent stationing of Soviet troops at the West German border and tough action against Czechoslovakia who engaged in what Moscow regards as anti-Communist activity during the January-to-August days of liberalization.

The raisin industry of California was started by the Jesuit friars, priests and Franciscan padres.

a committee proposal to allow an individual to purchase a gun over-the-counter in a state adjoining his own. That also has been attacked as a weakening provision.

Another amendment critics said would weaken the bill was revised Monday to spell out that collectors wanting to buy, sell and ship guns have to be licensed on the same basis as dealers, with the secretary of the Treasury to specify what types of weapons they can deal in.

The bill as it went to the Judiciary Committee specified that it cover all ammunition. But the committee majority, including some opponents of any new gun-control legislation, revised it to exclude the shotgun, rifle and .22-caliber ammunition.

Sen. Hugh Scott, R-Pa., a committee member opposing the majority position, argued the proposed change would have exempted ammunition for 90 per cent of all firearms.

# Voted for Amendment

WASHINGTON (AP) — Sen. John L. McClellan was one of 36 senators Monday who voted in favor of an amendment to the gun control bill. The amendment, which was defeated 41-36, would have exempted shotgun shells, rifle bullets, and all .22-caliber ammunition from a ban on interstate shipments of ammunition to private individuals.

# Johnson Prepared for Possible Fall Meet of Vietnam Allies

By SPENCER DAVIS

Associated Press Writer  
WASHINGTON (AP) — President Johnson is keeping his options open for a summit meeting of the Vietnam war allies this fall, possibly in mid-October.

Diplomatic sources say there are strong hints the President would like to fulfill the promise of the last Honolulu communique for another summit meeting before the end of this year.

A speedup of preparations for the meeting could be quickly carried out once the decision is reached, sources said.

Johnson's last meeting with South Vietnam's leaders was in July at Honolulu.

Before that session White House aides had said that it was being held in keeping with a Johnson policy to hold a summit on the Vietnam war every six months.

One question puzzling the political experts here is the effect such a meeting would have on the presidential campaign of Vice President Hubert H. Humphrey. U.S. officials see no likelihood Johnson will backtrack from the strong positions he took in two recent speeches when he said there would be no withdrawal of troops from the demilitarized zone that divides North and South Vietnam and indicated there would be no let-up in the limited bombing of the

North. According to one view, the question is how much would be gained in reassuring U.S. allies about the future course of American policy in the Far East and how much would be lost at home by such assurances.

At the same time, North Vietnam appears to be hardening its negotiating position in Paris, according to analysts here.

The demand that the United States recognize and negotiate with the National Liberation Front on matters dealing with the war in the South has been emphasized repeatedly in recent weeks by North Vietnam Premier Pham Van Dong and Nguyen Thanh Le, the politburo adviser at the Paris talks who is regarded here as a ranking official of the Hanoi government.

It is known to North Vietnam that the United States cannot accept the demand to negotiate separately with the NLF, political arm of the Viet Cong.

The standard U.S. position is to agree to talks with North Vietnam with the NLF represented at the negotiating table as part of the Hanoi team.

The United States also is insisting that the Saigon government be represented at the negotiating table if the preliminary meetings prepare the way for peace talks.

## CHATTER

By "BILL"

Is there a woman alive who wouldn't like to be glorified? Well, the time is at hand. This Fall Femininity is the keynote. Skirts move more gracefully, necklines are so softened by scarves or bows, color is everywhere, fabrics are smooth and easy - going . . . it is a GIRL'S year. And when we say girl, we mean female, age doesn't count any more. After all, we don't tell it, why show it?

You will wear pants with wider legs, your tops will have ruffles or mock-turtlenecklines. The sleeves will be long, you can push them up if you like but most of them will come to the wrist. Your car coat, which is a must-in any woman's wardrobe because it takes you to school, to work, to market . . . will be a bright solid color. If you want to be "in" it will be belted, if you couldn't care less you can wear it without.

Your "after-hours" will be spent in something sophisticated for town wear and perhaps in a pants suit for dropping in on friends. A simple knit dress in a gay color with lots of chains 'n' things will let people know you are a girl! The top to your pants suit can be a riot of color but if you have a hip problem, keep the pants dark, they are more slimming.

This is the year for dressing up and we have a hundred and one ideas for the female who wants to be glorified . . . shop today at

## Wedding Vows Are Repeated

MR. AND MRS. WILLIAM PAUL WELCH

FREEPORT, Tex. — Miss Loretta Kaye Brock and William Paul Welch were wed in a candlelight setting in the United First Methodist Church on Aug. 27. Mr. and Mrs. C. P. Brock of Freeport are the bride's parents and Mr. and Mrs. G. D. Welch of Hope, Ark., are the parents of the bridegroom. He is stationed at the Naval Air Station in Kingsville, Tex.

The bride's mother wore deep beige lace over taffeta fashioned in a modified A-line. The groom's sister, Mrs. Dorsey Stringfellow, who represented the family at the wedding, was gown in a one piece aqua linen dress, styled with a short skirt emphasized with pleats. Following the ceremony, a reception was held in the church parlor. House party members were: Miss Linell Grimes, San Antonio, the bride's cousin Miss Linda Gaurteaux, Freeport; Miss Ann Slonek, Lake Jackson; Mrs. W. H. Mohler, Mrs. R. W. Irvin, and Mrs. C. M. Helms of Freeport; Mrs. Edwin M. Traylor, cousin of the bride, of Corpus Christi.

Rice bags were distributed by Nancy and LaAnn Stringfellow, nieces of the groom. A three piece black and white knit suit was the costume chosen by the newlyweds Mrs. Welch for their trip to Louisiana and Arkansas.

The couple will make their home in Kingsville, where he is stationed with the Navy. The bride was a graduate of Brazosport High School and graduated from Texas A&I University Aug. 23 with a BS in Home Economics.

She is a member of Kappa Omicron Phi, National Home Economics Honor Society. He is a graduate of Brinkley, Ark., high school and attended Arkansas State College and Southern State College in Magnolia.

## Opera Opens With Same Mildewed Drama

By MARY CAMPBELL  
Associated Press Writer  
NEW YORK (AP) — The Metropolitan Opera opened its 84th season Monday night with an old-fashioned — you could add mildewed — opera, and memories of an old rivalry between prima donnas.

Renata Tebaldi sang the title role in Francesco Cilea's "Adriana Lecouvreur." It's an opera hopelessly complicated and intrigue-filled, with broad romantic melodies like Viennese operetta songs, not very exciting and not very musical in between.

The four principal singers all sang in the opera the last time it was done at the Met, six seasons ago. Franco Corelli looked dashing and ringleadingly sang the part Enrico Caruso sang the first time the Met did "Adriana Lecouvreur," on opening night in 1907.

Irene Dalis and Anselmo Colzani both sang well and made laudable attempts to act.

Maria Callas attended the performance — her first time inside the Met at Lincoln Center — bringing back memories of her long, celebrated "feud" with Tebaldi. Once, the battle lines were drawn and every opera lover was passionately convinced that either Callas or Tebaldi was the greatest soprano. Echoes of those by-gone days were heard just before the curtain went up, when shouts of "Brava Maria" reverberated against shouts of "Brava Renata."

But Callas' voice was nearly gone the last time she sang at the Met, in 1964 and though singing better than she did the last time she did "Adriana Lecouvreur" here, does not have the voice she once had.

The audience rather vent along with the "return to the past" tone of the evening, being conservatively dressed. Fewer bare shoulders were seen than usual, though the evening was balmy; fewer chandelier earrings and fewer flamboyant experiments in costume were noted, in favor of more traditional evening garb.

## Plane Cost to Be Billions

WASHINGTON (AP) — A Boeing Co. study suggests the 1,800-mile-an-hour Supersonic Transport Jetliners might cost about \$41.2 million each and that airlines might have to make a 50 per cent payment in advance.

The progress report on the SST development program's prospective financing also indicated a government guarantee close to \$2 billion may be required.

The study was made before the current slow-down pending re-design of the plane was ordered, said the Federal Aviation Administration which opened the study to public inspection Monday.

The deadline for completion of the financing program has been deferred to Dec. 31, 1969.

The Boeing study was submitted to the FAA July 1 but was not publicized until American Aviation magazine gained access to it.

### PAPER ROMANCE MIGHT GO UP IN SMOKE

Dear Helen: I "met" a Service man through Vietnam Mail Call. We corresponded for a year, and now he is at a base about 350 miles away from my home. Several times he has planned to visit me, but each time his leave has been cancelled. Though we've never seen each other, we have a very close friendship which might possibly develop into love.

During Thanksgiving vacation I want to fly out to see him, but my parents don't approve. I think they're afraid he won't be a gentleman, but I know he respects me. I'm 18, and quite capable of taking care of myself. But my folks insist he should come here first.

Are you on my side, Helen? — WAR CORRESPONDENT

Dear Correspondent: Sorry. Your parents got my vote. A paper romance is more fragile than you think. If it goes up in smoke, you'd find yourself 350 miles from home and pretty sad about a number of things, including a wasted plane ticket. Let him come to YOU. — H.

Dear Helen: My father is against my dating, but for a different reason you think. I'm 17, and like the son of a woman he likes better than married to my mother. He thinks I don't know about it but I might find out if I date this boy. My mother already knows my Dad is playing around, but she doesn't let on. She's got other interest too.

With everybody so secretive about things the others already know, it looks like the only ones getting hurt are the kids.

Maybe you think the boy isn't right for me, having a playaround mother, but people could say the same thing about me being a bad in fluence, with the parents I've got.

It isn't that way, Helen. Several times you've told kids to "learn in reverse," we have. We plan to be honest about our lives.

Should we start by having an honest talk with our folks? — HURTING

Dear Hurlin: Yes! It's time your parents saw themselves in the eyes of their children. It may shock them in to honest relationships if anything can! — H. Dear Helen: I'd like to answer "Troubled Teen" who says most kids between 13 and 17 drink a lot. Maybe most kids in his crowd do, but I'll bet his crowd isn't very big.

I'm a sophomore and I know none of my friends drink. I'm not saying we're angels, but we have better solutions to problems than trying to drink them away. When you start drinking excessively you don't convince other kids how "adult" you are. You just show them you're afraid to face up to life on your own. — S.S.

Dear Helen: What's so great about pooling your money and drinking yourselves under the table? What's that 15 year old source trying to prove that he can come up with the biggest hangover? He is definitely wrong when he says most high school age kids drink regularly. Sure, most of us try it but we don't go on weekend drunks or hit the booze at every party. That's for people, who haven't got anything else going for them, and you'd better believe

## Purdue Is Picked in Grid Poll

By THE ASSOCIATED PRESS  
Houston and Georgia cracked into the rankings as a weekend of only limited warfare produced a thorough shakeup in The Associated Press' major college football poll.

The top three—Purdue, Southern California and Notre Dame—were about the only teams to escape the madcap shuffle from the preseason rankings.

Purdue attracted 14 of the 30 first-place votes and 584 points, while Southern Cal had eight and 536 and Notre Dame two and 488.

Houston, unmentioned in the preseason poll, leaped all the way to 11th after humiliating Tulane 54-7, and Georgia took over the No. 18 spot after a 17-17 tie with Tennessee that dropped the Vols from ninth to 12th.

Nebraska, only other ranked team in action over the weekend, remained 14th after a 13-10 last-minute victory over Wyoming.

Texas moved up a spot to fourth, trading place with Oklahoma, while Florida climbed a notch to sixth and Alabama moved from 10th to seventh.

Oregon State dropped from sixth to eighth, Ohio State moved from 11th to ninth and Penn State fell two spots to 10th to round out the top 10.

Texas A&M slipped from 12th to 13th, Indiana from 13th to 15th, Minnesota from 15th into a tie with UCLA for 16th, Miami jumped from 20th to 19th and Louisiana State, dropped from 18th to 20th.

Arizona State, 17th in the preseason poll, and Syracuse, 19th, vanished from the ratings although neither has played a game yet.

The top 20 undoubtedly will undergo another shakeup next week, since three games this weekend matched rated teams.

Oklahoma opens at Notre Dame, while Minnesota is at Southern California and Houston tests Texas.

Purdue has drawn a soft touch in its opener, Virginia, but the following weekend the Boilermakers face Notre Dame.

The top 20, with first-place votes and total points (points awarded for first 15 picks on basis of 20-18-16-14-12-10-9-8-7-6-5-4-3-2-1):

1. Purdue (14)	584

## Northside Still Rated the Best

By THE ASSOCIATED PRESS  
Same song, third verse—the Grizzlies keep rolling along. Fort Smith Northside, for the third week in a row, garnered all 11 first place votes in the Associated Press Arkansas High School football poll.

The Grizzlies made Fayetteville their second straight shut-out victim Friday night, scoring a 35-0 decision. Northside starts its quest for the Class AAAA title Friday night at El Dorado.

The first seven teams in the poll remain unchanged. Little Rock Hall, North Little Rock, Springdale, Little Rock Central, Pine Bluff and Russellville follow Northside in the order.

Conway, which beat Harrison 21-0, jumped from tenth to eighth. Camden Fairview remained ninth and Hot Springs, which won its first two games, took over the tenth spot.

West Memphis, ranked No. 8 last week, dropped out of the select group after being upset by Stuttgart 10-7.

Russellville, St. Annes and Parkin continued to head the ratings in Class AA, A and B respectively.

Here are the results of the Associated Press poll with first place votes in parentheses and place votes in parentheses and total points at right:

1. FS Northside (2-0) (11)	110
2. LR Hall (1-0)	95
3. North Little Rock (2-0)	90

## Now McLain Wants Pay \$100,000

By MKE RATHET

Associated Press Sports Writer  
DETROIT (AP) — Denny McLain of the Detroit Tigers has his name in baseball's record books and a quarter-of-a-million dollars on the way to his bank book-two items which undoubtedly make it difficult to locate any reason for an encore.

But there still are two targets for McLain: The \$100,000 salary or more—which he insists he will get from the Tigers and the opportunity to become the first pitcher in half-a-century to win as many as 33 games.

The 24-year-old Tiger right-hander, also known for his organ music, became the first 30-game winner in the majors since Dizzy Dean in 1934 when he defeated the Oakland A's 5-4 Saturday.

But McLain admittedly wasn't only shooting for the record books against the A's. According to his agent, Frank Scott, some \$200,000 in endorsements awaited victory No. 30, and McLain himself put his stamp on a \$100,000 salary.

McLain, who is being paid an estimated \$35,000, said before he went out to pitch, "I want \$100,000 and that's what I'm going to get. I don't care if they (the Tigers) care about me saying it. And I'm not saying I'm stopping at \$100,000."

"I didn't say \$100,000 isn't much today."

According to Manager Mayo Smith, McLain probably will get three more starts before the end of the regular season and, therefore, can reach as high as 33 victories.

No pitcher has been able to put together that many since Grover Alexander of Philadelphia in 1916.

The tiny island of Guam has more than 20,000 automobiles.

Grid Cards Are Beaten by the Rams

ST. LOUIS (AP) — Ron Smith came to the Los Angeles Rams about the same way he went through the St. Louis Cardinals' defense—long and roundabout.

Both trips paid off handsomely as Smith's 94-yard kickoff return sparked them to a 24-13 victory over the Cardinals Monday night in a National Football League game.

The Rams' Head Coach George Allen, slipped milk and outlined Smith's journey to the club.

"We actually got him for big Ben Wilson," Allen explained. "You remember big Ben? We traded Wilson to Vince Lombardi (Green Bay) Parker general manager and he gave me a second round draft choice. We turned around and gave that to Atlanta for Smith, who is a proven ball player. I remembered him because I signed him for the (Chicago) Bears in 1965

## Tigers Maul Yanks and Clinch Tie

By DICK COUCH

Associated Press Sports Writer  
Norm Cash gave the Detroit Tigers a quick scent of the quarry they've been tracking for 23 long years, Baltimore's Don Buford postponed the Big Kill . . . but the Tigers can afford to wait another 24 short hours.

Cash smacked a two-run single in the first inning and a three-run homer in the second as the Tigers mauled New York 9-1 Monday night, assuring themselves of no worse than a tie for the American League pennant . . . which hasn't flown in Detroit since 1945.

Buford's grand slam homer and bases-empty blasts by Brooks Robinson and Boog Powell powered the second place Orioles past Boston 8-1 and kept them mathematically alive . . . but fading fast.

Rookie Rick Renick drilled a ninth-inning homer, giving Minnesota a 4-3 victory over California in the only other game on the AL schedule.

In the National League San Francisco downed Cincinnati 8-4, Pittsburgh beat Philadelphia 6-1 and Los Angeles trimmed Atlanta 6-0.

"I'm not sending Mayo any congratulations yet," said Baltimore skipper Earl Weaver after his club skirted elimination in its desperate pursuit of Mayo Smith's run away Tigers. "That's the way you play this game."

"We haven't given up hoping for a tie with them. We also have to think about holding on to second."

The Orioles, 10½ games off the pace, must win their remaining 10 starts while the Tigers lose their last 11 to force a pennant playoff. Detroit entertains New York and the Orioles are at Boston again tonight.

Weaver apparently has one eye on the oncoming Yankees, who moved into third place with a 10-game winning streak before running into a buzz-saw at Detroit.

Cash's single keyed a four-run opening burst against New York starter Joe Beranic and the Tigers rocked reliever Steve Barber for five more runs in the second, with Cash's 22nd homer the big blow.

The early onslaught helped southpaw John Miller, 9-5, breeze past the Yanks and extend Detroit's winning string to seven games. Miller scattered eight hits and struck out seven in hurling the 10th straight complete game for the Tigers' staff.

Brooks Robinson pulled the decisive fourth inning flurry with a single off loser Jim Lonborg, Elrod Hendricks' single, a walk and pitcher Tom Phoebus' infield hit broke the 1-1 tie before Buford unloaded into the right field bullpen for the second grand slam of his career.

Powell's leadoff homer and doubles by Robinson and Mark Belanger gave Phoebus two more runs in the fifth and he brought his season mark to 15-14 with ninth inning help from Eddie Watt.

Renick's third major league homer, a leadoff shot off Sammy Ellis in the ninth, capped Minnesota's late comeback against the Angels.

Two errors by Jackie Hernandez in thifourth helped the Angels push over three unearned runs, but the Twins rallied for three in the eighth on two walks, Cesar Tovar's double, a wild pitch and Rod Carew's triple.

before he went to Atlanta."

So the fourth-year man from Wisconsin repaid Allen with the touchdown run to open the second half and pushed the Rams into a 17-3 lead.

"Any time I get the ball," the freckle-faced Smith said, "I know I can go all the way. It was a square kick and I knew I would have to do a lot of maneuvering. I don't think I was even touched. They told me on the bench I stiffarmed (Jim) Bakken and he blocked out another guy."

"I thought the turning point was the kickoff return," Allen was saying. "It was the big play because the score was 10-3 at the time."

Free safety Ed Meador earlier supplied a couple of other turning points as he intercepted two Jim Hart passes. One set up the Ram's first touchdown and the second killed a Cardinals scoring drive.

## Cards May Determine Standings

By HERSCHEL NISSENSEN

The St. Louis Cardinals may be building a National League dynasty but it looks more like a dictatorship.

Not content with having run away with their second straight pennant, the Cards are about to have their say in determining the rest of the standings, as well.

They move into San Francisco tonight for a three-game series with the runner-up Giants, who lead third-place Cincinnati by two games after Monday's 8-4 victory over the Reds. Chicago is 3½ games behind the Giants and Atlanta is five back.

Then it's on to Los Angeles for three with the Dodgers, who are battling Houston and New York for eighth place. After that it's back home for two games with seventh-place Philadelphia, which is trying to catch Pittsburgh, and three with Houston.

In Monday night action, Los Angeles tripped Atlanta 6-0 and Pittsburgh trounced Philadelphia 6-1. St. Louis, Chicago, Houston and New York were not scheduled.

In the American League, Detroit clinched a tie for the pennant by routing the New York Yankees 9-1, Baltimore clobbered Boston 8-1 and Minnesota edged California 4-3. Cleveland, Oakland, the Chicago White Sox and Washington were idle.

"The way it's planned, the pitchers will go in their regular rotation for the remaining 11 games—Bob Gibson, Ray Washburn, Nelson Briles and Steve Carlton," Red Schoendienst, manager of the Cardinals, said Monday night.

That means Gibson will work every fifth day, which will bring him right up to Oct. 2 and the much-awaited confrontation with Detroit's Denny McLain in the World Series opener.

"I'll leave it up to Gibson if he wants to sit out one start," Schoendienst added, "and I may pitch all the relievers in the last game. I'll also get some of the regulars out for a few days. But the last four games I'll play them all."

Willie McCovey drove in four runs in San Francisco's victory over Cincinnati, which prevented the Reds from moving into a virtual tie for second place.

McCovey's two-run double highlighted a five-run rally in the seventh inning that gave rookie reliever Rich Robertson his first major league victory.

The slim crowd of 2,361, smallest in the Giants' San Francisco history, saw Willie Mays engage in a verbal altercation with two Air Force sergeants in the stands.

Mays had just made a running catch and was approaching the dugout in the middle of the fourth inning when he went after the two men. He was intercepted by Bobby Bonds and Manager Herman Franks and the sergeants were ejected from the park.

"All I said was, 'Nice catch; for a \$100,000 bum you're earning your money,'" explained Sgt. Jay Eash of the Alameda Air Station.

Bill Singer scattered nine hits and his two-run double capped a five-run uprising in the sixth inning that broke a scoreless tie with Atlanta as the Dodgers won for the 10th time in 13 games. Jim Lefebvre singled in the first run. Len Gabrielson doubled home the second and the third scored on an error by Felix Millan.

Rookie Dock Ellis hurled a three-hitter for his first complete game and Donn Clendenen

## Frank Broyles Is Crying the Blues

FAYETTEVILLE, Ark. (AP)

Coach Frank Broyles was crying the blues Monday after the University of Arkansas Razorbacks completed a one hour and 45-minute practice.

"It was a most alarming practice," Broyles said. "I couldn't believe they could regress that much in two days."

The Razorbacks did not practice from Saturday morning until Monday afternoon.

"I'm sure both players and coaches alike were disappointed," he said. "The players had a complete mental lapse of everything. It's very discouraging."

Broyles said the practice indicated the Porks had "lots of work to do before Saturday."

The Razorbacks open their season Saturday night at Little Rock against Oklahoma State University.

Now the Bobcats have the rough task of preparing for DeQueen this Friday, a game which Hope has to win for the sake of winning football at IHS. It's been a year since the Cats have won a game, the last victory a 13-0 road win at DeQueen a year ago.

For that matter, it's been nearly two years since the Bobcats have won a game on their home field, an almost unbelievable fact. These points, along with many countless others, will be bombarded into the team's heads as they try to get up once more following the 0-0 tie of last week.

As a matter of fact, with all things considered, the last three, or four years has really been a football drought for Bobcat teams. This year's edition is ready to end all that, and they try to get started for the third time this week.

A crucial factor in this third game will be the volume of the local fans' support, which has been good so far. As long as the squad continues to give their best, they deserve your support as well as mine, and there is plenty of room in Hammons Stadium and most other towns for all the fans who have been coming out.

Switching the subject to the Bobkittens, Coach Gaylord Solomon was displeased with his forces in their workout yesterday afternoon. The Kittens opened at home Thursday night with the DeQueen Leopard Clubs in a battle of unbeaten.

Hope won its opener 25-0 versus early over Prescott, and DeQueen scored two fourth-period TD's to whip Mena 20-7 in their first game. It should be a close one come Thursday night, and game time is set for 7:30 p.m.

# Four Records Broken in Eight Days

## Will Instruct Dancing in Hope

By RBN RAPOPORT  
Associated Press Sports Writer  
SOUTH LAKE TAHOE, Calif. (AP) — The sun was beginning its descent behind Echo Summit when Payton Jordan, head coach of the U.S. men's Olympic track and field team, made his way over to the rows of canopied benches serving as a press tent.

For eight days, observers had watched American athletes go about the business of picking the track and field team that will compete in Mexico City next month and now it was time for summing up.

Inevitably, the discussion got around to altitude. What about the report, somebody wanted to know, that the Russian team had spent far more time training at high altitude than the U.S. team had spent at the Echo Summit camp, 7,377 feet above sea level.

"I think," said Jordan, in perhaps the understatement of the year, "the evidence is rather clear that we've been here long enough."

It is that, in terms of competition and performances, the Olympic trials that ended here Monday are likely to go down as the best track meet in the history of the sport. And the team the United States will field in Mexico City will surely be its best ever.

It is not merely that four world records were broken during the eight days here. Or that 10 performances here were as good as or better than the recognized world standard in their respective events.

But when the depth of performance, the marks achieved by the second, third and fourth-place finishers in event after event is taken into account, the United States must be counted on as a distinct possibility to see, several events in Mexico City and to take medal after medal in many of the rest.

It was not bravado alone that led Jim Hines to predict a sweep in the 100 meters or John Carlos to predict one in the 200 or Lee Evans to predict one in the 400. Or Willie Davenport to predict one in the 110-meter hurdles or Geoff Vanderstock to predict one in the 400 hurdle or Melhard to predict one in the shot put.

All were winners at their events, except for Margard who came in second to George Woods.

Bob Seagren of Southern Cal set the world record with a 17-9 pole vault.

Hines won the 100 in 10.0, routine for him, and if that makes Charlie Greene only the second best sprinter in the country, then it also makes him probably second best in the world.

Woods took the shot at 68-3/4 while Maggard was second at 67-4/4. Sand world record holder Randy Matson had to settle for third at 67-1/4.

Still not convinced? Well, we've gotten this far without even a mention of Jim Ryan, winner of the 1,500 meters in 3:49.0 and, if healthy, a clinch for a gold medal in Mexico City.

# Voters Going to Polls in Three States

Voters went to the polls in three states today to decide three Massachusetts congressional bids for renomination, renominate eight Washington congressmen and settle a congressional runoff in Oklahoma.

With campaign help from Sen. Edward M. Kennedy, Democratic Massachusetts Rep. Edward P. Boland sought renomination over challenger Charles V. Ryan Jr., former three-term Springfield mayor.

Democratic Rep. Torbert H. Macdonald seeks renomination over the Rev. John D. Elder, assistant dean of Harvard Divinity School, and Democratic Rep. Philip J. Philbin is challenged by three Democrats in his bid for renomination.

Four other Massachusetts congressmen were unopposed either in the primary or the Nov. 5 general election.

In Washington, Democratic Sen. Warren G. Magnuson and seven House members faced either token opposition or in three cases none at all.

Washington voters also decided a three-way Democratic gubernatorial nomination race between state Atty. Gen. John J. O'Connell, state Sen. Martin Durkin and Jack Tanner, a Negro attorney in Tacoma.

Bill Muncy, a national speedboat champion, opposed Art Fletcher, a Negro city councilman from Pasco for the state's GOP Lieutenant governor nomination.

# Veteran Felt Just Like Rookie

By JAMES R. POLK  
Associated Press Sports Writer  
WASHINGTON (AP) — John Wooten, a pro for nine years, felt the pressure just like a rookie in his season debut, starting his football career anew after being cut by Cleveland in a racial controversy.

"I've never wanted to win so badly as this year," said Wooten, the new guard for the Washington Redskins.

"I definitely felt the pressure," he said today. "There's nothing like coming out of the locker room to find out you've been cut."

Wooten threw a goal line block that cut down two potential tacklers to cap a 12-yard touchdown run by Gerry Allen and played a key role in Washington's superb pass protection as the Redskins upended the Chicago Bears Sunday 38-28 for their first opening day victory in 10 years.

The agile 250-pound lineman, a former Pro Bowl player, was released by Cleveland in a dispute over a preseason golf tournament arranged by defensive back Ross Fichtner. No Negro players were invited. Wooten, a Negro community leader in Cleveland, protested.

The Browns turned loose both Wooten and Fichtner. Wooten said, "the Redskins were the first team I contacted. The whole thought behind it was they had a chance to go somewhere."

"I went into Sunday's game with more pressure than I normally would," he said. "I'm still in the process of learning the Washington system. There were times in the huddle I was checking and rechecking assignments."

Coach Otto Graham praised Wooten's performance and said, "He's a very fine football player."

# Hunters Want Doe Season Canceled

LITTLE ROCK (AP)—State Rep. T.E. Sparks of Fordyce presented the state Game and Fish Commission with a petition Monday calling for cancellation of a proposed antlerless deer hunt in South Arkansas.

Sparks presented the petition, which was signed by about 1,500 persons, as head of a delegation from Dallas and Cleveland counties.

The present plan for the hunt calls for the issuance of 1,000 permits in each of three game management zones during the last regular gun season, Dec. 9-14. The permit would allow hunters to kill antlerless deer.

Sparks said the deer had not had a chance to rebuild from the last doe season.

Gene Rush, chief of the commission's Game Division, said the hunt was designed to help the area's deer herd. He said the sex ratio was getting out of hand because of the continual slaughter of bucks. He said the does would die of starvation or old age unless the hunters shot them.

# Portuguese Premier Is Near Death

By DAVID MAZZARELLA  
Associated Press Writer  
LISBON (AP) — Premier Antonio de Oliveira Salazar rallied slightly today nearly 24 hours after a crippling stroke brought him near death. But his condition remained critical.

The 79-year-old leader's neurosurgeon, Dr. Antonio Vasconcellos Marques, told reporters at noon: "The premier's state of health did not deteriorate. Instead some improvements took place."

But sources at Red Cross Hospital continued to speak of Salazar's condition as desperate.

Earlier, Salazar's personal physician, Prof. Eduardo Coelho, had also reported some improvement but said the premier remained in a coma.

# Need New Law for Address

BRADFORD, Pa. (AP) — Howard L. Leichter thinks he lives at 39 Nelsendale Ave. in Foster Township.

The Post Office says he lives at 39 Nelsendale Road. But the street sign in front of his house says Phillips Road.

"I don't have trouble finding the house. I would just like to find out where I live," he told the township supervisors.

The township officials promised to pass an ordinance to straighten out his address.

# Britons Are Denouncing Weatherman

By GRANVILLE WATTS  
Associated Press Writer  
LONDON (AP) — Britons denounced their weathermen today for failing to warn them of the three-day downpour that flooded huge areas of southeast England, caused three deaths and did millions of pounds worth of damage.

The floods covered hundreds of square miles, marooning families, isolating towns and villages and disrupting road and rail services.

Members of the House of Commons said that the meteorologists on Saturday gave no indication of the dangers ahead and said they would raise the matter in Commons.

The weather office chief, Dr. Brian Mason, protested: "We haven't got a computer sufficiently powerful to make an accurate forecast of the rainfall on a day-to-day basis."

Rain Monday night added a fresh threat to areas not already under water and hampered rescue operations by police and troops.

Thousands of people were evacuated from inundated homes and housed in temporary quarters.

The British Automobile Association said that almost every stream and river in southeast England was at danger level.

Army amphibious vehicles were sent to Dalham, near Newmarket race course, where some places were under 11 feet of water. In Norfolk, the coastal resorts of Great Yarmouth and Lowestoft were cut off by flooded roads.

The weathermen forecast more rain today but added that drier weather was on the way.

# Says Nixon Can't Afford to Be Quiet

By JACK BELL  
AP Political Writer  
WASHINGTON (AP) — A key aide to Hubert H. Humphrey says Richard M. Nixon can't afford to remain quiet in the presidential campaign no matter how far ahead he is in the polls.

Sen. Fred Harris, D-Okl., said today that "In my time in politics I have never seen a man who was so far ahead in the polls at the state that he thought he could coast into office and get elected."

"I think that is what is going to happen this time. There is no denying that Humphrey is the underdog, but he is a fighting one and before he gets through he is going to smoke Nixon out into the open on the issues."

Harris, a chief advisor to Humphrey, was repeating what has become a main theme in the Democratic contender's campaign — to force Nixon into some sort of confrontation.

Part of this effort involves getting Nixon to debate Humphrey on nationwide television as he did John F. Kennedy in 1960. Humphrey people think their man can overcome the large margin Nixon has built up in the polls if the GOP candidate will speak out more definitely on the issues.

"Every time Nixon takes a position some of the people who are 'voting against' are going to change their minds," Harris said.

Nixon said during his campaigning in the pre-convention primaries that he would welcome a debate. But he has not commented on Humphrey's challenge and his advisors are reported strongly opposed to such a confrontation.

Harris added that the Humphrey campaign organization, which he said has operated on a largely hit-and-miss basis, is being tightened up, with regional and state coordinators fanning out in all sections of the country.

"We are going to have a non-resident coordinator in every state," he said. "We will have in operation in the next few days a line of communications from top to bottom and from bottom to top."

"It's late, of course, but it's not too late to get the job done."

In a separate interview, Sen. Mansfield of Montana also said there may be a turnaround in the polls in the remaining seven weeks of campaigning remaining.

Mansfield, who is supporting Humphrey despite reservations on the vice president's Vietnam war views, said the Democrats have an uphill battle.

But "it's very early," Mansfield said. "The polls do show a trend but seven weeks is a long time for campaigning in this day and age. I look for Humphrey to go up."

# Nixon Making California Top Target

By WALTER R. MEARS  
Associated Press Writer  
ANAHEIM, Calif. (AP) — Richard M. Nixon is making California a top target of his Republican campaign for the White House—for personal as well as political reasons.

The lure of 40 electoral votes, and the prospect of victory in a state which once rejected him at the polls, already have drawn Nixon to California twice within 10 days. At least two more campaign missions to the state are planned before the Nov. 5 election.

If state polls, which now show Nixon leading Vice President Hubert H. Humphrey, should give any hint of trouble later, there probably would be additional campaigning in California.

Nixon said Monday night he feels he must win in his native state if he is to capture the presidency.

"It's top priority," said Herbert G. Klein, his director of campaign communications.

California ranks second only to New York in electoral votes. "It's also a matter of personal pride," Klein said of Nixon's concentration on California.

He was born in Yorba Linda — and returned there Monday for a hectic visit to the house in which he was born. Swarms of children surged around the yard, screaming and pushing for a look at the nominee.

California gave Nixon his political start electing him to the House of Representatives and Senate — and also deal him his gravest setback, a 300,000 vote defeat in his 1962 bid to become governor. It came two years after Nixon had narrowly carried California over the late President John F. Kennedy.

This time, the state poll shows Nixon running nine percentage points ahead of Humphrey. Nixon will seek to build his backing tonight with an hour-long television show, to be broadcast on a statewide hook-up.

He made a similar appearance two months ago, before he won the Republican nomination. He spent the days after that victory in San Diego, planning his presidential campaign, and returned for campaign appearances in San Francisco and Santa Clara on Sept. 5.

A speech Wednesday in Fresno will wind up the current trip. A crowd estimated by police at about 4,000 greeted Nixon at Yorba Linda; an estimated 14,000 overflowed the Anaheim Convention Center for a Monday night rally.

The homesite Nixon visited once was a lemon farm, an unsuccessful one run by his father. Now the land is the site of the Richard M. Nixon elementary school. The fading white bungalow has a plaque commemorating it as Nixon's birthplace, and its occupant is a school gardener, Vinant Ellingson. He rents the house from the school district for \$80 a month.

Nixon's Anaheim rally was something of a political spectacular. There was a red and white hot air balloon, with two passengers, tethered outside the auditorium.

Inside, show business supporters such as ventriloquist Edgar Bergen and Charlie McCarthy, warmed up the crowd.

A 500-voice chorus sang the Battle Hymn of the Republic after Nixon's entrance, and the nominee joined in the final chorus.

Nixon proposed a program he said he would institute to combat traffic in narcotics.

He said narcotics are "defeating a generation of Americans," and advocated international cooperation and reinforcement of U.S. agents to keep drugs out of the country. He also said smuggling laws should be revised and rehabilitation programs improved.

But "it's very early," Mansfield said. "The polls do show a trend but seven weeks is a long time for campaigning in this day and age. I look for Humphrey to go up."

# Take your baby to a specialist.

Our mechanic knows just about all there is to know about Volkswagens. He should. He went to special Volkswagen mechanic school. (How else would he know that the tightening torque for the wheel bearing locknut should be 50 foot-pounds incorporated on a torque wrench?) And he passed a series of special exams. He goes back periodically for a refresher course, too, to keep up on all the changes we make over 5000 in the past 19 years. Which means he doesn't stop learning when he starts working. So when your little one needs a checkup, take it to our mechanic. He works only on Volkswagens. So he's a specialist at curing the bug.

## Unclaimed Pot of Gold

Assets worth billions of dollars, unclaimed by their rightful owners, are being gobbled up instead by assorted government agencies. The process, known as "escheat," is gathering speed as officials become more keenly aware of this treasure trove within their reach.  
How does it work? The key stone is the ancient legal doctrine that property, if left unclaimed too long, passes over to the government. As one court explained:  
"When property has ceased to have an owner, it should be held for the benefit of the community."  
This wealth accumulates in many

forms: forgotten bank accounts, dividends on mislaid stocks, utility deposits that are never picked up.

A lot of modern experts would disdain the two spade response that Oswald Jacoby made to Helen Sobel Smith's opening heart bid. We would not say that they are nuts but rather that they are misguided. Jacoby was on his way to a slam and wanted to alert his partner right away.

Helen's three diamond rebid was normal, as was Jacoby's three hearts. Then Helen bid four clubs and it was up to Jacoby to do a little thinking. It was the second hand they had played together in 25 years and they were playing a cross between 1948 Goren and 1933 Culbertson or what might be called general common sense bidding.

Jacoby decided she was showing both the diamond and club aces as well as shortage in spades. How good were her trumps?

Culbertson had a method of finding out. The five no-trump grand slam force. Would Helen know about it? The bid disappeared in the '30s and has just come into expert popularity. There was nothing to lose. Helen would not pass at five no-trump. He bid it.

Helen said, "I guess I'm expected to do something." Then she thought awhile and bid the grand slam.

There was nothing to the play. With hearts and spades both breaking, anyone would make the grand slam but Helen exhibited the technique that would be expected of the greatest woman bridge player of all time. She won the heart in her own hand, led a spade to dummy's ace, a second heart to her hand, a second spade to dummy, drew the last trump and claimed the slam.

She had given herself a slight extra chance and would have made the contract against a 4-1 spade break if the four spades and long trump had been in the same hand.

## ♥ ♣ CARD Sense ♦ ♠

Q — You, South, hold:  
AK876 ♠ AK9543 ♦ 2 ♣ 2  
What is your opening bid?

A — Bid one heart. You are insurance proceeds that are never collected, legacies for missing heirs. In recent years the amount of such unclaimed wealth has risen into billion-dollar figures. And an estimated one billion more is piling up every year.

As a result, all states have enacted escheat laws which, in varying degree, hasten a takeover by the government. Sometimes property is seized outright. Sometimes it is merely taken into protective custody, subject to being reclaimed by the owner if he turns up.

In any event, once the state has taken possession of an asset, getting it back is not easy. A claimant must bring himself strictly within the statutory requirements. Take this case:

After a man died, his family discovered that for many years he had failed to collect dividends on a certain stock. By the time of this discovery, the accumulated dividends had already been taken over by the state.

The family duly filed a claim for the money, but in vain. Under the local statute, a refund could be made only to the original owner of the stock — not to his heirs.

The best way to protect your assets from escheat is to be an "active" owner. That means keeping close tab on investments, cashing checks promptly, giving notice of changes of address, leaving insurance policies where they will be found in case of death, having an up-to-date will.

Of course you personally might be willing, as a public-spirited citizen, to have your money go to the government. But if so, you might as well bring that about by an act of generosity, not just by neglect.

## Don't Pull Hangnails, Cut Them With Scissors

By WAYNE G. BRANDSTADT, M.D.

Q — I get frequent hangnails. What can I do to prevent them?

A — You should take care not to pull loose any skin or nail tags that form at the edge of your nails. Cut them gently with nail scissors. Because the roots of these hangnails are so easily infected, you should keep your hands and nails clean and, if a nail tag becomes irritated, apply thin-layered (Merthiolate) at once to ward off infection.

Q — What can I do about toenails that are thick and hard? If I soak my feet to soften my nails, this aggravates my eczema.

A — If this is an inherited trait, no preventive measures are possible. In many persons, however, the cause is wearing shoes that are too short and not keeping the nails trimmed. That is why this condition is seen on the toenails but almost never on the fingernails. If you can't trim your toenails with scissors, you should file them. Meanwhile, why not find the cause of your eczema and treat it?

Q — Some sort of disease is eating my husband's fingernails. What can I do to prevent this?

A — This is often due to prolonged exposure to detergents or to the frequent use of nail polish remover. Your nail polish gives support to your nails, so why not add new

Q — What would cause my toenails to go black or yellow-brown?

A — Taking preparations that contain arsenic or mercury is a possible cause. Some fungus diseases cause the nails to become black or brown. A dead nail becomes yellow-brown and a severe injury with bleeding under the nail will give it a black appearance.

A Free Press, A Fair Trial

Criticism of the Reardon report, the controversial recommendation by an American Bar Association committee for a tough crackdown on pretrial publicity, popped up in a surprising (to us, anyway) place last week. The report has drawn fire from numerous journalism groups. But last week its rejection by the ABA was urged in a resolution adopted at a national meeting in Birmingham of Sigma Delta Kappa, the intercollegiate law fraternity.

"The suppression of news concerning the commission, investigation and prosecution of crime, proposed by the Reardon Report, would present real danger to the public good," the resolution said. This, remember, came not from a press organization but from a law fraternity.

The Birmingham News has sought to make the point many times that two constitutional guarantees are involved: Freedom of the press and the right of a defendant to a fair trial. These must be balanced. But the cause of justice has been served much more often than it has been subverted by full disclosure of relevant information.

The Bar Association is interested in guaranteeing that a defendant gets a fair trial. So is the press. Sigma Delta Kappa's message to members of its own profession may get more notice than similar objections raised by journalism groups, which some lawyers have tended to dismiss as self-serving.

Both free press and fair trial are public rights. The press and the legal profession have a great responsibility to see that both are protected. — Birmingham (Ala.) News

### A Word To Students, Parents

#### On Taxes

A tax tip for students who have summer jobs:

Up to \$900 can be earned completely tax-free. This is because of the \$600 personal exemption plus the \$300 minimum standard deduction. In addition, as much as \$500 more income will be taxed at only 14 per cent. Thus, a student fortunate enough to earn \$1,400 on a summer job would have a tax liability of only \$70. The surtax levied this year doesn't affect persons with \$1,000 or less taxable income.

There also is something of a tax break for parents of a summer job-holder who will be less than 19 years old by the end of the year or is a full-time student, regardless of age. If they furnish more than half his support, they can claim a \$600 dependency deduction for him regardless of the fact he claims a \$600 personal exemption on his own tax return. In any case, the student should file a return even if he doesn't have to pay tax, in order to get a refund of any tax withheld. — Jacksonville (Fla.) Florida Times-Union

## Bloodmobile Is Coming to Hope Friday

Douglas Drake, chairman of the Hempstead County Red Cross Chapter, has appointed Haskell Jones, General Manager of KXAR, to be Blood Program Chairman.

Jones announces that there will be a makeup visit by the Blood Mobile at Hope Wire Products on Friday, Sept. 20th from 10 a.m. to 4 p.m., or six hours. Employees of Hempstead Manufacturing Company, G&S Manufacturing Co., Hope Wire Products and Standard Generator Company, plus any person living in the west section of the city who wishes to give is invited to be on hand for this visit.

This visit could make or break the entire blood program for the county since we are behind quota, Jones said.

## Record Number of Students

By THE ASSOCIATED PRESS  
JONESBORO, Ark. (AP) — A record number of students, 6,194, enrolled for the fall term Monday at Arkansas State University, and school officials said they expected the total to climb before the week is out.

Last year's enrollment of 5,802 was a record. Freshman enrollment also set a record, up 77 from last year to 2,474.

## Cold Front Is Supposed to Move in

By THE ASSOCIATED PRESS  
Thundershowers and storms blanketed most of Arkansas early today as a cold front system moved in the northwest portion during the night.

A squall line of severe thunderstorm activity with 45 mile an hour winds swept across portions of the state with large hail reported in some areas. However, only minor damage was reported.

Mostly cloudy skies are expected over the state through Wednesday with rains expected to continue. Cool temperatures are expected tonight and mild Wednesday.

All stations reported precipitation in the 24-hour period that ended at 7:30 a.m. today, ranging from 0.35 inches at Texarkana to 1.72 inches at Little Rock.

Low temperatures reported around the state this morning ranged from 60 degrees at Fayetteville to 96 at Fort Smith.

## Two Accidents Investigated

City Police investigated two accidents yesterday involving five cars.

Yesterday on South Grady a car driven by Mrs. James F. Ward hit a parked car owned by Ernest Grisham and rammed it into another car owned by L.J. Hampton. About \$350 damage resulted to all the vehicles. Officers Willis and R. Rowe said.

On Avenue A and Walnut a car driven by Bobby L. Parks was hit by one leaving a service station and driven by Francis Flenoy. Damage was minor said Officers Brown and McCulley.

## Ban Includes Mail Order Ammo Sales

By ROBERT T. GRAY  
Associated Press Writer  
WASHINGTON (AP) — Senate backers of stronger gun control laws have scored an important point by winning approval of a ban against the mail order sale of ammunition for rifles, shotguns and .22-caliber weapons.

The Senate voted Monday 41 to 36 to rebuff the Senate Judiciary Committee's proposed amendment to exclude the ammunition from the controls set out in the main control bill.

The vote came as the Senate started work on scores of amendments to the bill which, like one passed earlier by the House, bars the mail order sale of guns and ammunition to private persons.

Still to be acted on is an amendment, turned down by the Judiciary Committee and the House, to require the registration of all guns and the licensing of their owners.

Under the proposal by Sen. Joseph Tydings, D-Md., states could set up their own registration-licensing plans, but if they refused the federal government would do it for them.

## Courts May Get Board Issue Again

By ED SHEARER  
Associated Press Writer  
LITTLE ROCK (AP) — Democrats and Republicans appeared today to be headed for the courts again over the issue of naming third members of County Boards of Election Commissioners.

The litigation appeared certain following a lengthy meeting Monday in which the two parties disagreed in 16 of the 75 counties with each claiming their choice to be the duly elected county commissioner.

By vote, the Democrats won every case since they outnumbered Republicans on the state board by a 6-3 margin.

However, Republican Gov. Winthrop Rockefeller, the chairman, held that the Democratic choices did not "represent" the Republican party and that, therefore, the GOP choices were elected.

Rockefeller said he was using a Sept. 3 Supreme Court decision which said that the third members had to "represent" the majority party, but need not be a member of the majority party.

Rockefeller's rulings from the chair were appealed and voted down by the Democratic majority each time; but the governor stuck to his ruling anyway.

The governor said he was doing See COURTS MAY (on page two)

## Fortas Faces New Hazards in Senate

By JOHN CHADWICK  
Associated Press Writer  
WASHINGTON (AP) — Abe Fortas' nomination to be chief justice won the approval of the Senate Judiciary Committee today, but still faced serious trouble in the Senate itself.

The committee vote was 10 to 6.

The battleground now shifts to the Senate, where a filibuster is threatened against confirming the nomination.

The outcome is in doubt. It takes a two-thirds majority of senators voting to choke off a filibuster by putting a debate-limiting closure rule into effect.

Opponents, who include Republicans and Southern Democrats, claim they have the votes to keep the debate going and perhaps enough to defeat the nomination outright, which would require only a simple majority.

## Marines Hard Hit by Enemy

By GEORGE ESPEY  
Associated Press Writer  
SAIGON (AP) — North Vietnamese troops caught a column of U.S. Marines as the Leathernecks were digging in for the night Monday, killed 25 and wounded 126 with more than 200 mortar rounds and a hail of small arms fire.

The Americans struck back with mortars, artillery and helicopter gunships. The Marines reported 27 of the enemy killed in the 10-hour fight four miles south of the central part of the demilitarized zone.

The Marines were from the 26th Regiment, the defenders of Khe Sanh who held out against a 77-day Communist siege last winter, and then abandoned that outpost. The casualties Monday were comparable to those on the worst days at Khe Sanh.

The first North Vietnamese barrage pounded in at 3:30 p.m. just as the Marines were moving into defensive positions for the night, one of the most vulnerable spots troops can be in. The Marines apparently were caught before they could get their foxholes dug.

U.S. helicopters and artillery and mortars pounded the North Vietnamese positions, but the Communists kept up the attack until 6:30 p.m. More than 150 rounds were fired into the Marine positions before the barrage subsided.

Two hours later, the North Vietnamese renewed their mortar-tarring, and an hour later small arms fire crackled around the Marine perimeter.

The attack didn't end until 1:30 a.m. today.

"The mortars apparently caused most of the Marine casualties," said a U.S. spokesman. A mile away from the 26th Marines' battleground, Marines from the 9th Regiment clashed with a North Vietnamese platoon of perhaps 40 to 50 men in fortified positions. Jet fighter-bombers and artillery pounded the positions until the enemy soldiers withdrew as darkness was approaching.

A spokesman said that troops from the two Marine regiments are conducting sweep operations in close proximity to each other, trying to clear the area of North Vietnamese troops pressing along the central DMZ.

## Nuclear Treaty Approved by Committee

By ROBERT T. GRAY  
Associated Press Writer  
WASHINGTON (AP) — The Senate Foreign Relations Committee today approved a treaty to halt the spread of nuclear weapons and sent it to the floor for action.

The vote was 13-3, with three abstentions.

The majority overrode objections of members who urged delay because of the Soviet-led invasion of Czechoslovakia.

Acting Chairman John Sparkman, D-Ala., said he hoped the Senate would act during the current session of Congress on the nonproliferation treaty. No date has been set for a Senate vote.

A two-thirds vote will be needed to give Senate consent to the treaty under terms of the Constitution.

The heavy endorsement in the committee came after weeks of uncertainty over whether the treaty would reach the floor in view of the Czech crisis and concern about other Soviet intentions.

Russia has signed the treaty and Senate critics had argued immediate U.S. participation would be a gesture of cooperation with that country at the same time it was being accused of aggression.

Backers urged that the treaty be considered a step toward heading off a nuclear war and not connected to the Soviet actions.

The treaty would pledge nuclear nations signing it not to give nuclear weapons or the know-how to make them to countries not now possessing them.

Non-nuclear countries would pledge they will not seek or acquire such weapons.
